

# Town of Halton Hills Parks and Cemeteries Operational Review

## Project Description:

HSAL was engaged by the Town of Halton Hills to assess the operational relationships between the Parks & Cemeteries Operations and Public Works Operations Divisions.

The work involved recommending a structure for the Parks & Cemeteries and Public Works operations units that would enable more effective utilization of resources and delivery of services; improving the flexibility and cooperation between operating units; increasing the total maintenance and operating capacity of the municipality, and, increasing efficiency of the operating units within the municipality.

HSAL prepared a report that documented the exiting operational model of both departments; the strengths and weaknesses of each group; the status of cooperation and communication between the groups; and, the organizational changes necessary to optimize operational effectiveness.
